## Cargo cult

From Wikipedia, the free encyclopedia

*For other uses, see Cargo cult (disambiguation).*

A **cargo cult** is a millenarian belief system in which adherents perform rituals which they believe will cause a more technologically advanced society to deliver goods. These cults were first described in Melanesia in the wake of contact with allied military forces during the Second World War.

# HOLACRACY VS. HIERARCHY

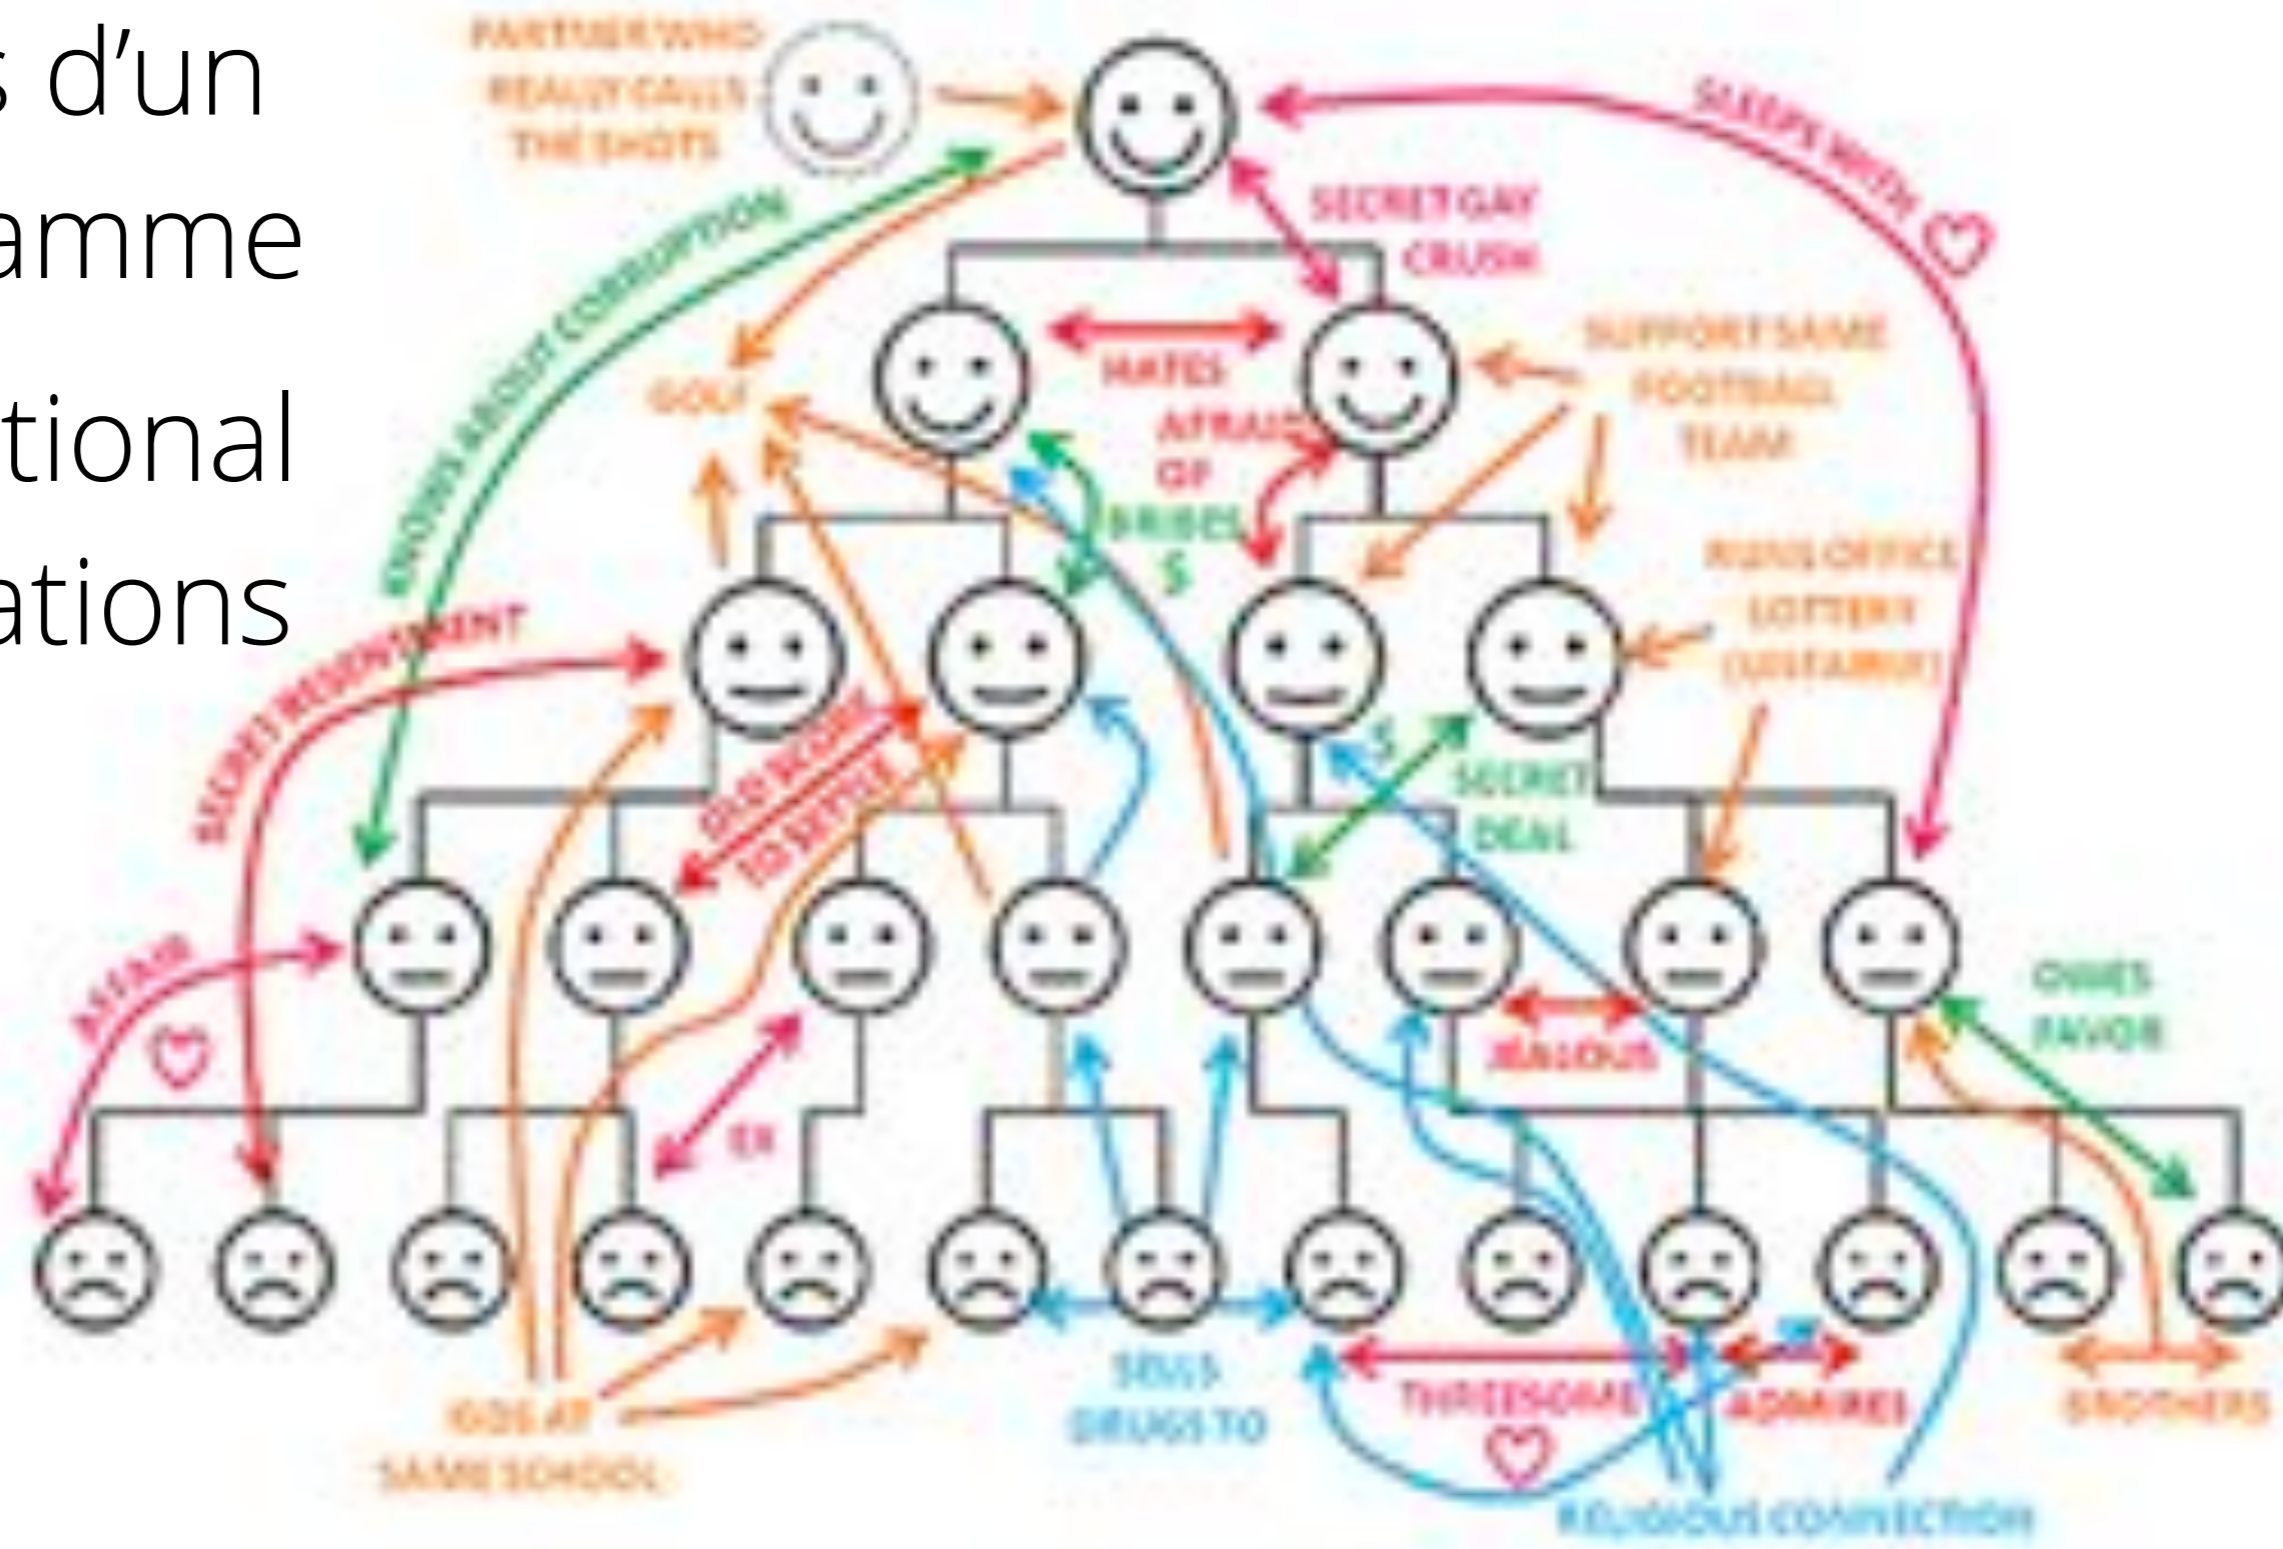

**Holacracy** takes powers traditionally reserved for executives and managers and spreads them across all employees.

In a **traditional hierarchy**, layers of management establish how products are approved and monitored.
